

High Quality Process Printing

Lidding & Roll Stock

10-color printing to make you stand out | With our state-of-the-art printing capabilities, we produce safe, high-quality lidding & roll stock domestically. We help reduce costs and shorten lead times by producing our structures in one facility from concept to finished product.

PORTCO.COM

Committed to Sustainability

We are a 3rd generation family run company. We strive to make the highest quality, safest packaging in the most responsible way – for brands we’re really passionate about. Our sustainable options through our EarthGuard offer structures with a more responsible end-of-life.

ROLL STOCK

Available in master rolls of paper, film, metalized film and foil combinations in a range of thicknesses, the roll stock can be coated, printed, perforated or slit into smaller rolls. When converted, it becomes one of many different styles of finished packaging: from pillow packs to flow wrap and stand-up pouches, etc.

SAFETY

We oversee the entire manufacturing process in-house, from start to finish. We source, test, and trace materials, ensuring full traceability from raw materials to finished goods. Supported by SQF certification.

TRAY & CUP LIDDING

Portco provides a diverse selection of lidding films and tray lidding services for various applications like steam packaging, fresh seafood, and ready meals. Our films are designed to complement different tray and cup materials, offering easy peel and weld seal features with breathable to high barrier finishes.

QUALITY

Our presses are equipped with 100% image inspection, ensuring your message and packaging are consistent throughout the entire run.

LOCATION

Domestic supply. You’ll know exactly where your product originates. In fact, you can come see us any time you want. You can rest assured we will stand behind our product to make sure you get the quality you expect and the packaging your fine products deserve.

PACKAGING THAT SELLS

Our experienced team can analyze your current structure and design, and then help you create a package that sells. Contact us to learn how we can help your packaging perform better.

LET’S START A CONVERSATION

At Portco, we prioritize protecting our customer’s products while manufacturing packaging in a way that minimizes our impact on the planet.
